

Blue Ridge Dermatology Coronavirus (COVID-19) Update:

We are continuing our normal schedule of seeing patients, but to protect our patients and staff during this difficult time, we are asking screening questions of our patients before and at their arrival about symptoms, exposures, and recent travel.

If you are experiencing a fever, cough, or shortness of breath, if you have been in contact with someone with those symptoms or with diagnosed COVID-19, or if you have traveled recently to a high-risk area, please call us at 828-456-7343 and reschedule your appointment.

Thank you for your understanding and cooperation.
